

24/7 DIGITAL FINANCE ASSISTANT FOR EQUIPMENT DEALERS

Trnsact software allows a dealer to create a customized digital F & I experience for your customers. Customers can safely and securely apply and **submit credit applications from any digital device** to any of your preferred lenders. You will no longer need to create and submit multiple applications to lenders, Trnsact's platform will do it for you. Our proprietary software has the ability to **streamline the credit submission process** will allow you to spend more time on sales and **less time on wasteful paperwork**. You will no longer need to store sensitive customer personal data, Trnsact will store it for you and provide you and your customers with secure links to upload customer files.

"Trnsact has truly made a big improvement in our business. It has taken something that typically took days..to a credit approval in less than a couple of hours."
